Bidding system

This document describes, rule by rule, the system the bidding engine applies. It is generated from the rules file and follows its order and sections.

For every call the engine takes the FIRST applicable rule, in document order: its sequence matches the auction so far and its condition holds on the hand. If none applies, or if the rule's call would be illegal, the player passes.

The sequence is seen by the bidding pair: its own calls, passes included, and the opponents' calls in parentheses, their passes left out. "Opening": nobody in the pair has spoken yet. A leading "...": any beginning. "?": any call. "[trumps ♠]": the pair's agreed suit is ♠. The pair's initial passes are ignored, unless the sequence itself starts with Pass.

Points: HCP = high-card points (A 4, K 3, Q 2, J 1); HL = HCP + one point per card from the fifth in a suit headed by at least Q-J, less one point per bare honour or bare pair of honours; DH = HCP + shortness points (void 3, singleton 2, doubleton 1), same deduction; HLD = HL + shortness points, + 4 for a 6-5 two-suiter or longer. ♠ ♥ ♦ ♣ alone mean the length of the suit. Seat: the player's rank in the auction (1 = dealer, 4 = fourth seat).

Forcing: NF non-forcing, F1 forcing one round, FM game forcing, INV invitational, SO sign-off, REL relay, ASK asking bid, TO takeout double, PEN penalty. Status: SEF (SEF 2024 cards), SEF 2018, choix (chosen option), inferred (natural completion, not on the cards), to be checked.

A.14 Roudi

After $1\clubsuit/\diamond - 1\heartsuit/\spadesuit - 1NT$ (or $1\heartsuit - 1\spadesuit - 1NT$), responder's $2\clubsuit$ (11+ HL, five-card major) asks opener about support and strength.

Three-step Roudi: $2\diamond =$ two cards in the major (minimum or maximum), $2\heartsuit =$ three cards, minimum, $2\spadesuit =$ three cards, maximum. SEF 2024: every responder's bid at the three level after Roudi is game forcing.

A.15 Third suit forcing

Responder bids the third suit after opener rebids the opening minor: to show extra length, ask for a stopper for NT, or make the auction forcing (9+ HL, not self-forcing). Opener's non-forcing answers: back to responder's major at the two level, 2NT with a stopper, rebid of own suit. Raising the third suit is natural.

cases: o = opening, M = responder's major, t = third suit, f = fourth suit (unbid)

A.16 Fourth suit forcing

Responder bids the fourth suit to show extra length, ask for a stopper for NT, or make the auction forcing; it is game forcing. Opener's answers, in order of priority: three cards in responder's major, 2NT (or 3NT) with the fourth-suit stopper (mini-maxi: 12-15 or 18-19 HL), rebid of the second suit with 5 cards, raise of a fourth-suit minor at the three level with Axx and a non-minimum opening, rebid of the first suit with nothing else to bid. A jump rebid of the minor promises at least 6 cards.

A.18 bis Competition: overcalls, balancing and continuations

Basic defence against an opposing one-level suit opening. SEF thresholds: 1NT overcall 16-18 H, balanced, with a stopper;

"any shape" double with 18+ H; suit overcall with a good 5+ card suit, 5 H in the suit (9+ H, 10-17 HL at the one level; 11+ HL and six cards, or 14 HL, at the two level);

weak jump overcall with six cards and 6-10 H; takeout double with 13+ (over a minor: 3-4 cards in each major; over a major: four cards in the other major, short in the opened suit).

Thresholds tuned on the par benchmark (engine/testdata/par_bench.jsonl.gz): a lighter overcall costs the overcalling side more than it gains.

Two-suiters (Michaels, 2NT) are coded earlier and keep priority. Sequences start with the opponents' opening: `P (1♦)` and `(1♦)` are handled together.

answers to the takeout double (right-hand opponent passed): three zones, 0-7 / 8-10 / 11+ HCP

Answering is compulsory, even with 0 points. 0-7 HCP: a suit of at least 4 cards, no jump (4♥ and 4♠: 1♠). 8-10 HCP: a four-card major with a jump, five-card with a double jump, six-card at game; a five-card minor with a jump; both four-card majors: cue-bid; 1NT balanced. 11+ HCP: game with a five-card major, 2NT 11-12 with one and a half stoppers, 3NT 13-15 with two stoppers, otherwise the cue-bid (the only forcing answer: only a four-card major, no stopper, or slam hopes).

answers to partner's overcall (right-hand opponent passed)

Law of total tricks (J.-R. Vernes): in competition, you may contest up to the level equal to the line's trumps minus 6 — 8 trumps at the two level, 9 at the three level, 10 at the four level.

(1♣) 1♥ → 4♥

Condition: ♥ ≥ 5 and 5 ≤ HLD ≤ 10

Meaning: Preemptive raise: five trumps opposite the five-card overcall (10 trumps, four level)

defence against weak twos (2♥ / 2♠), direct and balancing seat (C. Martel's course, 2018; A. Lévy's game-forcing 2NT)

React as over a one-level opening, a little more soundly: every action promises opening values, no preempt over a preempt. Short in the preempt suit, take risks; long (2 cards or more), stay careful.

M = the preempt suit, N = the other major

defence against three- and four-level preempts (M. Bessis, Bridgeur no. 758, 2003)

Careful in second seat: act only with a hand that would have acted over a one-level opening (no preempt over a preempt). Very active in the balancing seat: shortness in their suit is enough, even without opening values. Calls mean the same in both seats; a suit shows 6 cards (often 5 at the three level), the double is for takeout, 3NT is natural, 4NT shows a two-suiter.

A.19 Natural continuations (completions)

These rules fill in common bids that the cards do not detail: opener's natural rebids and responder's third bid. They are all `inferred`: to be replaced by the Part B rules once those are specified. They come ****after**** the specific rules, which keep priority.
